Subject: RE: Ringwood Mines - Request for Extension of Public Comment Period
Date: Wednesday, March 25, 2020 10:09:19 AM

Good morning Joe again hope you are safe and well....

As you well know that giving the current situation facing our country and the world it leads to many who have concerns about the Ringwood Mines Superfund Site to not have this at the forefront of there minds as they battle with the anxiety of the unknown.

Also as you were made aware that we have other information that I still need to pass on to you and the EPA, which I am currently working on.

We also work closely with Universities who also find themselves and the work they do with and for us disrupted and we rely heavily on their guidance as we do not have paid experts to speak on our behalf.

Giving us this time will allow for us to have complete specific comments that given the time will reflect our concerns for this site currently as well as into the future.

Also we still have the remains of one of our people who's life was lost in Cannon Mine and we together need to address this in an amenable way.

Stay safe and blessings

Subject: Ringwood Mines - Request for Extension of Public Comment Period

Hi Chief Mann – My management is currently considering your request for an extension of the public comment period on the OU3 Proposed Plan. It would be helpful if you could explain why you believe that you need another 60 days to provide comments on the Proposed Plan. I will pass this information on to EPA management for their consideration. Thank you and stay safe.

Joe
